Soft Skills

- Team Collaboration
- Time Management
- Critical Thinking

ABOUT ME

Passionate web developer with a keen eye for clean, functional design and practical coding solutions. Trained in front-end development and familiar with server-side fundamentals, with experience in crafting dynamic, mobile-responsive interfaces. Committed to continuous learning and driven to deliver value in fast-paced development teams.

PROJECTS

Flipkart Clone - E-commerce Website

- Developed a responsive e-commerce interface using React, featuring product cards, category filters, and search functionality.
- Integrated Firebase for real-time data storage and secure user authentication.
- Designed a clean, mobile-friendly UI with Tailwind CSS.
- Collaborated using GitHub for version control and project contributions.

Blogging App

- Built a dynamic blogging app with React, supporting post creation and editing.
- Used Firebase Auth and Firestore for secure login and content storage.
- Integrated image upload and dynamic post rendering using real-time database updates.
- Responsive UI with Tailwind CSS, deployed via Vercel.

TextUtils App

- Developed a utility web app to transform and analyze user-entered text.
- Features include: Convert to uppercase/lowercase, count words & characters, copy to clipboard, and remove extra spaces.
- Designed a simple and responsive interface using Tailwind CSS and React state handling.

Quiz App

- Created a dynamic quiz system with multiple-choice questions and instant scoring.
- Implemented state management for smooth question transitions and result tracking.
- Designed with a responsive layout and user-friendly interface.
